

Plexicushion®

Plexipave

the advantage in sports surfaces

The Plexicushion System combines the consistent bounce, sure footing, and outstanding durability of Plexipave with the innovative shock-absorbing properties of EPDM Rubber cushioning. The result is a surface that dynamically responds to body impact and reduces fatigue on players' legs, knees, ankles, and feet. The multi-layered resiliency lengthens the biomechanical life of players of all ages, from juniors who are just starting to play competitively, to seniors who are enjoying the game in their later years.

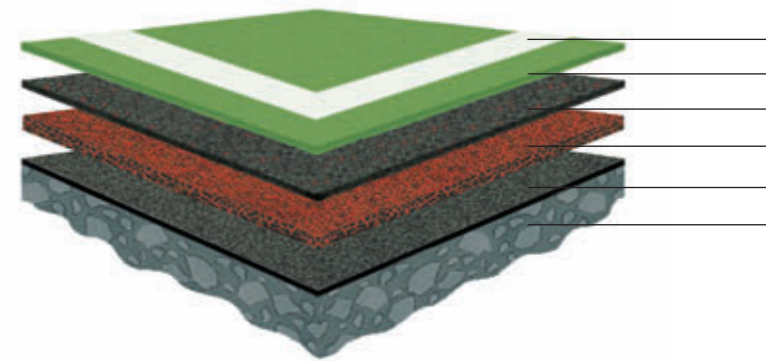

The Plexicushion substrate, a special blend of latex, rubber, and plastic particles, forms a resilient layer that absorbs body shock and reduces muscle fatigue. The 100% acrylic Plexipave surface provides consistent and uniform bounce, long-lasting colour, and allows speed of play specification.

- Increases health and longevity for players of all ages
- Adjustable level of cushioning
- Leading UV formulation protects pigmentation against colour fading
- Manufactured with post-industrial recycled materials
- Can be customised to all ITF Pace Ratings

There is a Plexicushion system to fit every performance specification:

Plexicushion TOURNAMENT

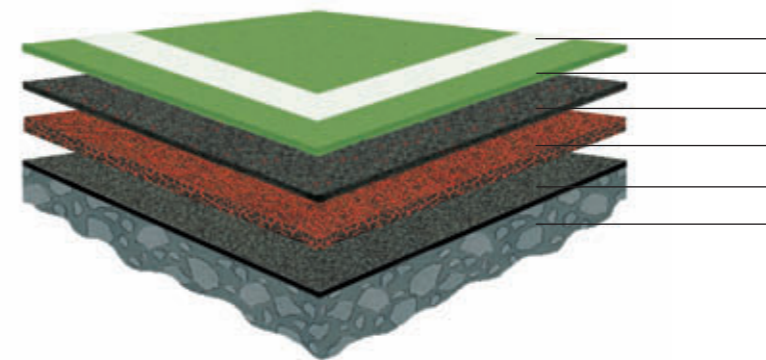

Plexicushion Tournament specifications

- Plexicolor Line Paint
- Fortified Plexipave
- Plexicushion - three layers
- Plexicushion Base Coat - two layers
- Acrylic Resurfacer
- Concrete or Asphalt

- Identical design to the industry-leading Prestige system as per below, affordably constructed by removing one layer of Base coat.

Plexicushion Prestige

Plexicushion Prestige specifications

- Plexicolor Line Paint
- Fortified Plexipave
- Plexicushion - three layers
- Plexicushion Base Coat - three layers
- Acrylic Resurfacer
- Concrete or Asphalt

- The original, and still undisputed champion, of cushioned tennis surfacing systems.
- The sub-surfacing system is comprised of SBR and EPDM rubber granules, compressed plastic particles and special mineral fibers bound by special water based polymers.

The Plexicushion Prestige system has been chosen by Tennis Australia as their surface of choice for the Australia Open Series and as the ideal training surface for future Australian champions.
